Abstract

The 5th Uro-oncology Winter Congress was held in Skopje, at the Macedonian Academy of Sciences and Arts on January 30 – February 03, 2013. The Congress was co-organized by the Macedonian Academy of Sciences and Arts, the Istanbul University, the Turkish Urology Association, Macedonian Society of Urology and the Ministry of Health of the Republic of Macedonia. Topics of the Congress were tumors of urinary tract (kidney, vesica urinaria) and prostate. The latest achievements in the diagnosis and treatment of the above-mentioned disease were presented. Around 300 participants from the Balkans took part at the meeting. There were simultaneous sessions on different uro-oncological issues with around 60 presentations. In addition, there were poster presentations and training courses. It is important to point out that we had a session with participation of Balkan uro-oncologists – Balkan Urology Session, which is the first time in recent years.

Keywords: Uro-oncology, prostate, urinary tract, Balkan Urology Session

The Congress was good basis for future cooperation of the Balkan countries in the field of uro-oncology and beyond, medicine, biology and other sciences.

Резиме

ПЕТТИ УРООНКОЛОШКИ ЗИМСКИ КОНГРЕС – СКОПЈЕ, РЕПУБЛИКА МАКЕДОНИЈА (30 јануари – 3 февруари 2013)

Момир Поленаковиќ, Живко Попов

Македонска академија на науките и уметностите, Скопје, Р. Македонија

Петтиот Уроонколошки зимски конгрес се одржа во Скопје, во Македонската академија на науките и уметностите, на 30 јануари – 3 февруари 2013 година. Конгресот беше во организација на Македонската академија на науките и уметностите, Истанбулскиот универзитет, Турското уролошко здружение, Македонското здружение за урологија и Министерството за здравство на Република Македонија. Теми на Конгресот беа туморите на уринарниот тракт (бубрежите, vesica urinaria) и простатата. Беа претставени најновите достигнувања во дијагнозата и третманот на горенаведените болести. Околу 300 гости од Балканот учествуваа на состанокот. Се одржаа истовремени сесии за различни уроонколошки прашања со околу 60 презентации. Покрај тоа, имаше и постер-презентации и курсеви за обука. Важно е да се истакне дека се одржа и Балканска уролошка сесија, на која учествуваа балканските уроонколози, првпат во последните години.

Клучни зборови: уроонкологија, простата, уринарен тракт, Балканска уролошка сесија
